

Gennum Appoints Ian Roane as General Manager of Audio & Wireless Products Division

BURLINGTON, ON (January 5, 2007) – Gennum Corporation (TSX: GND) announced today that Ian Roane has been appointed to the position of General Manager of the Audio & Wireless Products Division of the Company. Mr. Roane will assume responsibility for all aspects of the Audio & Wireless Products Division, including marketing, R&D, and product development.

Mr. Roane previously held engineering management positions with National Semiconductor, Novatel and Nortel, and has extensive experience in ASIC, RF and mixed signal design. Most recently, he served as Vice President of Engineering and Chief Operating Officer of RF Odyssey, a fabless semiconductor company focused on developing and marketing radio frequency integrated circuits for the broadband wireless access market.

“Ian is an open, direct leader who is results oriented,” said Dr. Franz Fink, President and CEO of Gennum. “His strong engineering, new product development and RF/wireless expertise will be invaluable in leading and directing the Audio & Wireless Division business.”

The company’s internal manufacturing and supply chain operations, which were previously managed on a decentralized basis, reporting in part to the head of the Audio & Wireless Division, have been consolidated into a central Operations Group serving all business areas of the company.

About Gennum Corporation

Gennum Corporation designs, manufactures and markets industry-leading semiconductors and semiconductor-based products for leading segments of the global video, audio, and data communications markets. The Company's understanding of the unique needs of its targeted markets allows it to deliver high performance solutions that provide superior value.

Gennum serves an international customer base from its head office in Burlington, Canada, and subsidiaries in Japan and the United Kingdom. The Company has design centres in Burlington and Ottawa, and in the United Kingdom.
